Auchanruie Forest

# Auchanruie Forest

240.36 Hectares / 594.89 Acres

A compact, highly productive, diverse, commercial forest in the heart of Perthshire with timber ready to harvest.

- Majority of commercial species comprises Sitka spruce
- Conifer weighted average age of 23 years
- Excellent location for conifer growth and timber markets
- High quality internal road
- Mixed age class from young to mature crops

## Location

---

Auchanruie is well located just south of the A9, approximately six miles southwest of Blair Atholl in the County of Perthshire. The popular town of Pitlochry lies nearby and provides a wide range of amenities, services and accommodation. The area is widely regarded as one of Scotland's most desirable locations for commercial forestry investment, underpinned by strong and consistent demand for forestry properties. Central to this appeal is the proximity to the A9, providing ready access to a number of major timber processing facilities. The local timber market benefits from consistently competitive prices, reflecting both the depth of buyer activity in the region and the productive growing conditions, characterised by suitable soils and a favourable climate. A strong and well-developed forestry sector forms a key part of the local economy, and purchasers can draw on an experienced network of forestry managers, contractors and professional advisers operating throughout the region. Together, these factors make the area particularly attractive for both existing forestry investors and new entrants to the sector.

## Access

---

Access is taken directly from the A9, exiting at Calvine onto the B847 towards Struan and Kinloch Rannoch. After approximately two miles, the forest entrance lies on the left-hand side, marked as A1 on the sale plan. The B847 is an Agreed Timber Transport Route with a long history of heavy timber traffic. An alternative haulage route is available via Tummel Bridge, affording flexibility for future harvesting operations.

From the public road, the access track crosses third-party land between points A1 and A2 under a legal servitude right of access, subject to shared maintenance obligations. This section crosses the Errochty Water by way of an Irish bridge.

Internally, access is well established. A good quality forest road, serves the principal compartments, with a borrow pit within Compartment 10 having provided road-building material. More recent road extensions serving Compartments 6 to 9 are in good order. Together, the internal and external road networks have successfully facilitated the extraction of significant volumes of timber from the property and provide a sound basis for future management and harvesting.

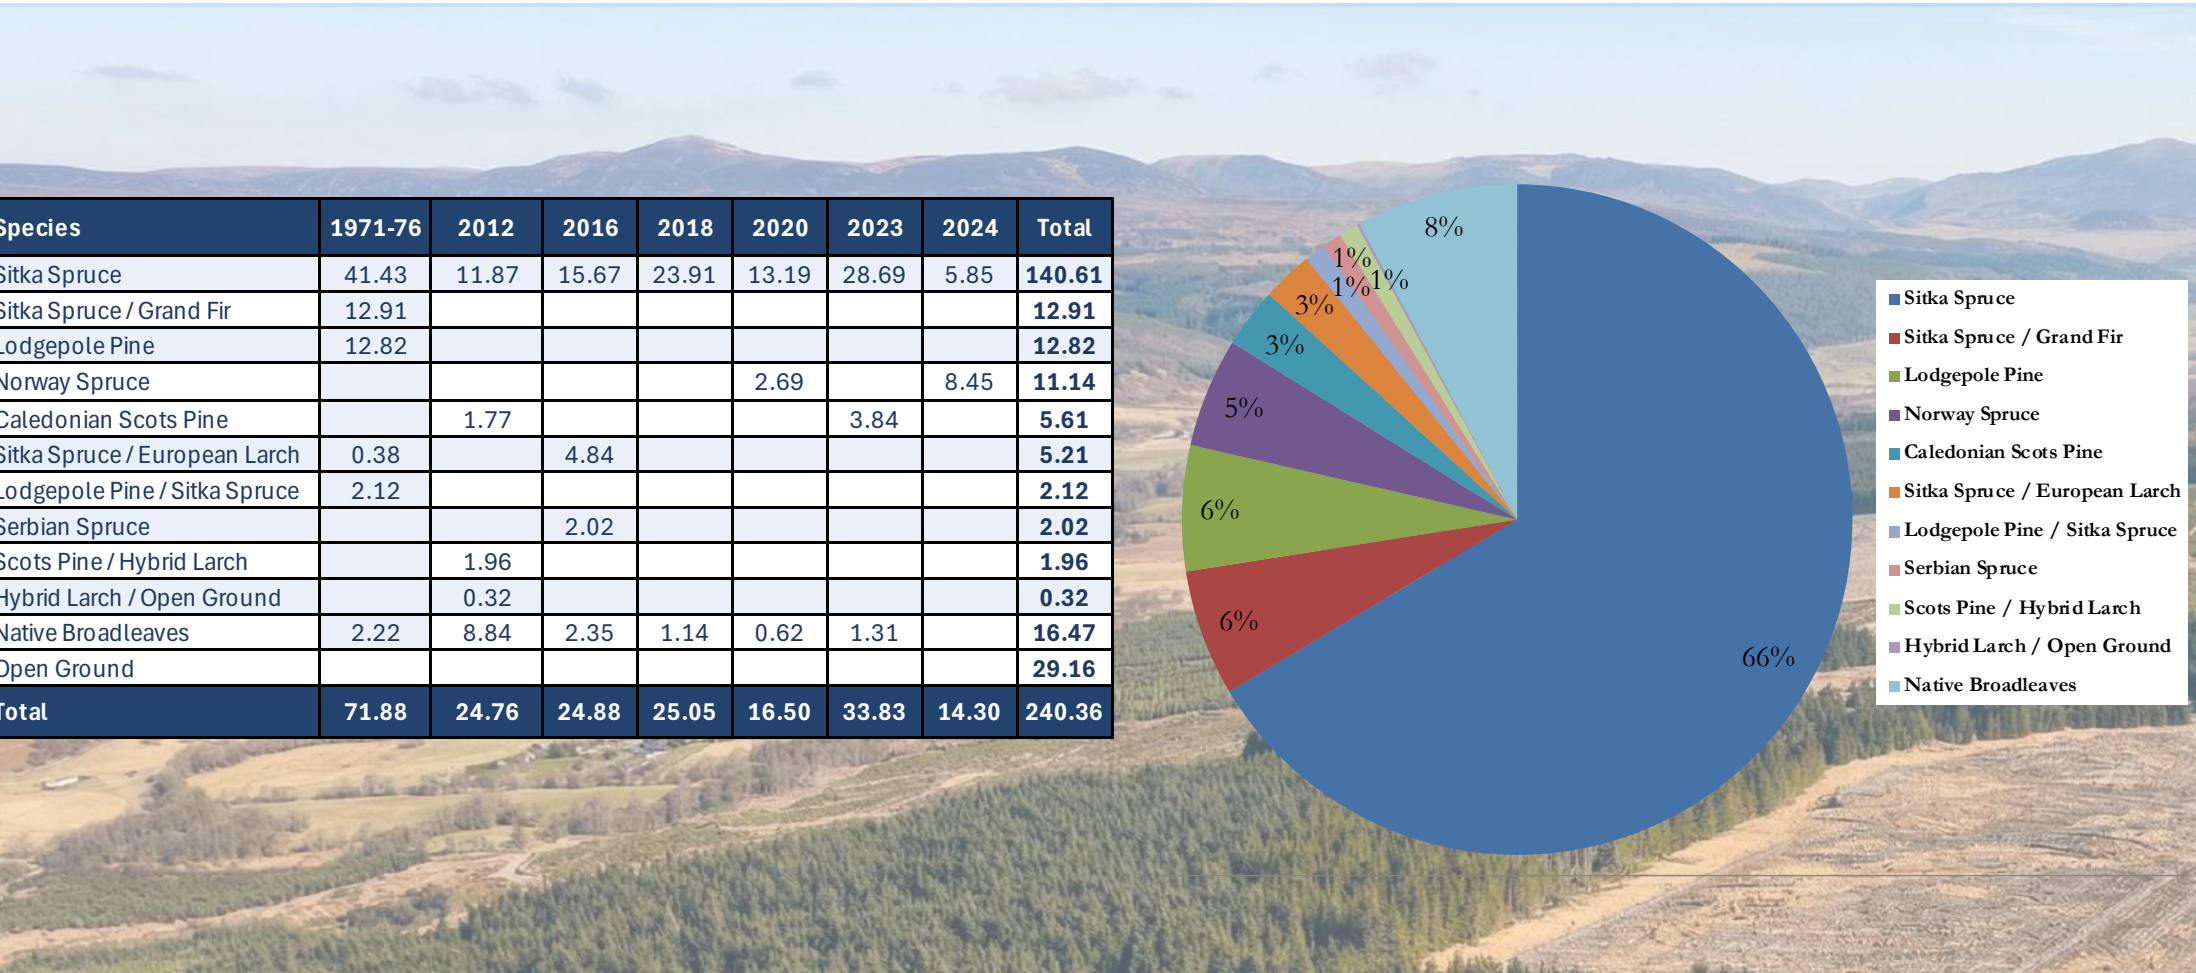

## Description

The forest was originally established between the late 1960s and 1976, predominantly with Sitka spruce, complemented by some areas of mixed conifers and broadleaves to provide diversity. Sitka spruce remains the principal species across the property, accounting for the majority of the stocked area and reflecting both the original planting and a sustained programme of restocking. The crop now spans a wide range of planting years, from 1968 through to 2024, with a current weighted average age of approximately 23 years.

This long-standing programme of felling and restocking has created a well-balanced, commercial forest offering both near-term and future income potential. Compartments 1 and 2 were restocked to a high standard in 2024, while the 2023 restocking in Compartments 8 and 9 is establishing well, demonstrating strong growth and a high estimated yield class. Recent planting has also broadened the species mix, introducing Norway spruce, Scots pine and Serbian spruce alongside continued Sitka spruce, together with areas of native broadleaves that contribute to the wider landscape and habitat value of the property.

A significant standing timber volume has developed within the mature crops, particularly in Compartments 6, 7, 9 and 11, providing attractive near-term harvesting potential.

| Species                       | 1971-76      | 2012         | 2016         | 2018         | 2020         | 2023         | 2024         | Total         |

## **Sporting Rights**

---

Sporting rights are included in the sale. The current owner has in place a deer management agreement with a professional stalker.

## **Boundaries**

---

The property is mostly bounded by a stock fence. Maintenance is on 50:50 basis with the neighbouring land owners.

## **Mineral Rights**

---

The mineral rights are excluded in terms of the titles, but the owner of the property may extract stone and gravel for the purposes of constructing and maintaining roads within the property.

## **Wayleaves & Third-Party Rights**

---

The property will be sold with the benefit of, and subject to, all existing rights and burdens with the Titles.

## **Designations**

---

We are not aware of designations impacting the property. Interested parties should carry out their own searches.

## Forest Grants & Management

The property is managed by Tilhill. It is not subject to any current forestry grant schemes. For information on current grants available, please visit the following websites:

<https://forestry.gov.scot>

<https://www.ruralpayments.org/publicsite/futures>

## Viewing

Viewing is possible at any time. Please contact Goldcrest Land & Forestry Group to arrange a viewing. For your own personal safety, please be aware of potential hazards when viewing.

## Offers

If you wish to make an offer or would like to be informed of a closing date for offers, it is important that you contact the Selling Agents to note your interest and to obtain the specific Anti-Money Laundering details that we require from a purchaser prior to accepting an offer.

In addition, all offers must be submitted in Scottish legal form before they can be formally accepted.

## Financial Guarantee/Anti Money Laundering

All offers, whether cash or subject to loan finance, must be accompanied by a financial reference from a bank/funding source that is acceptable to the Selling Agents and to comply with The Money Laundering, Terrorist Financing and Transfer of Funds (Information on the payer) Regulations 2017.

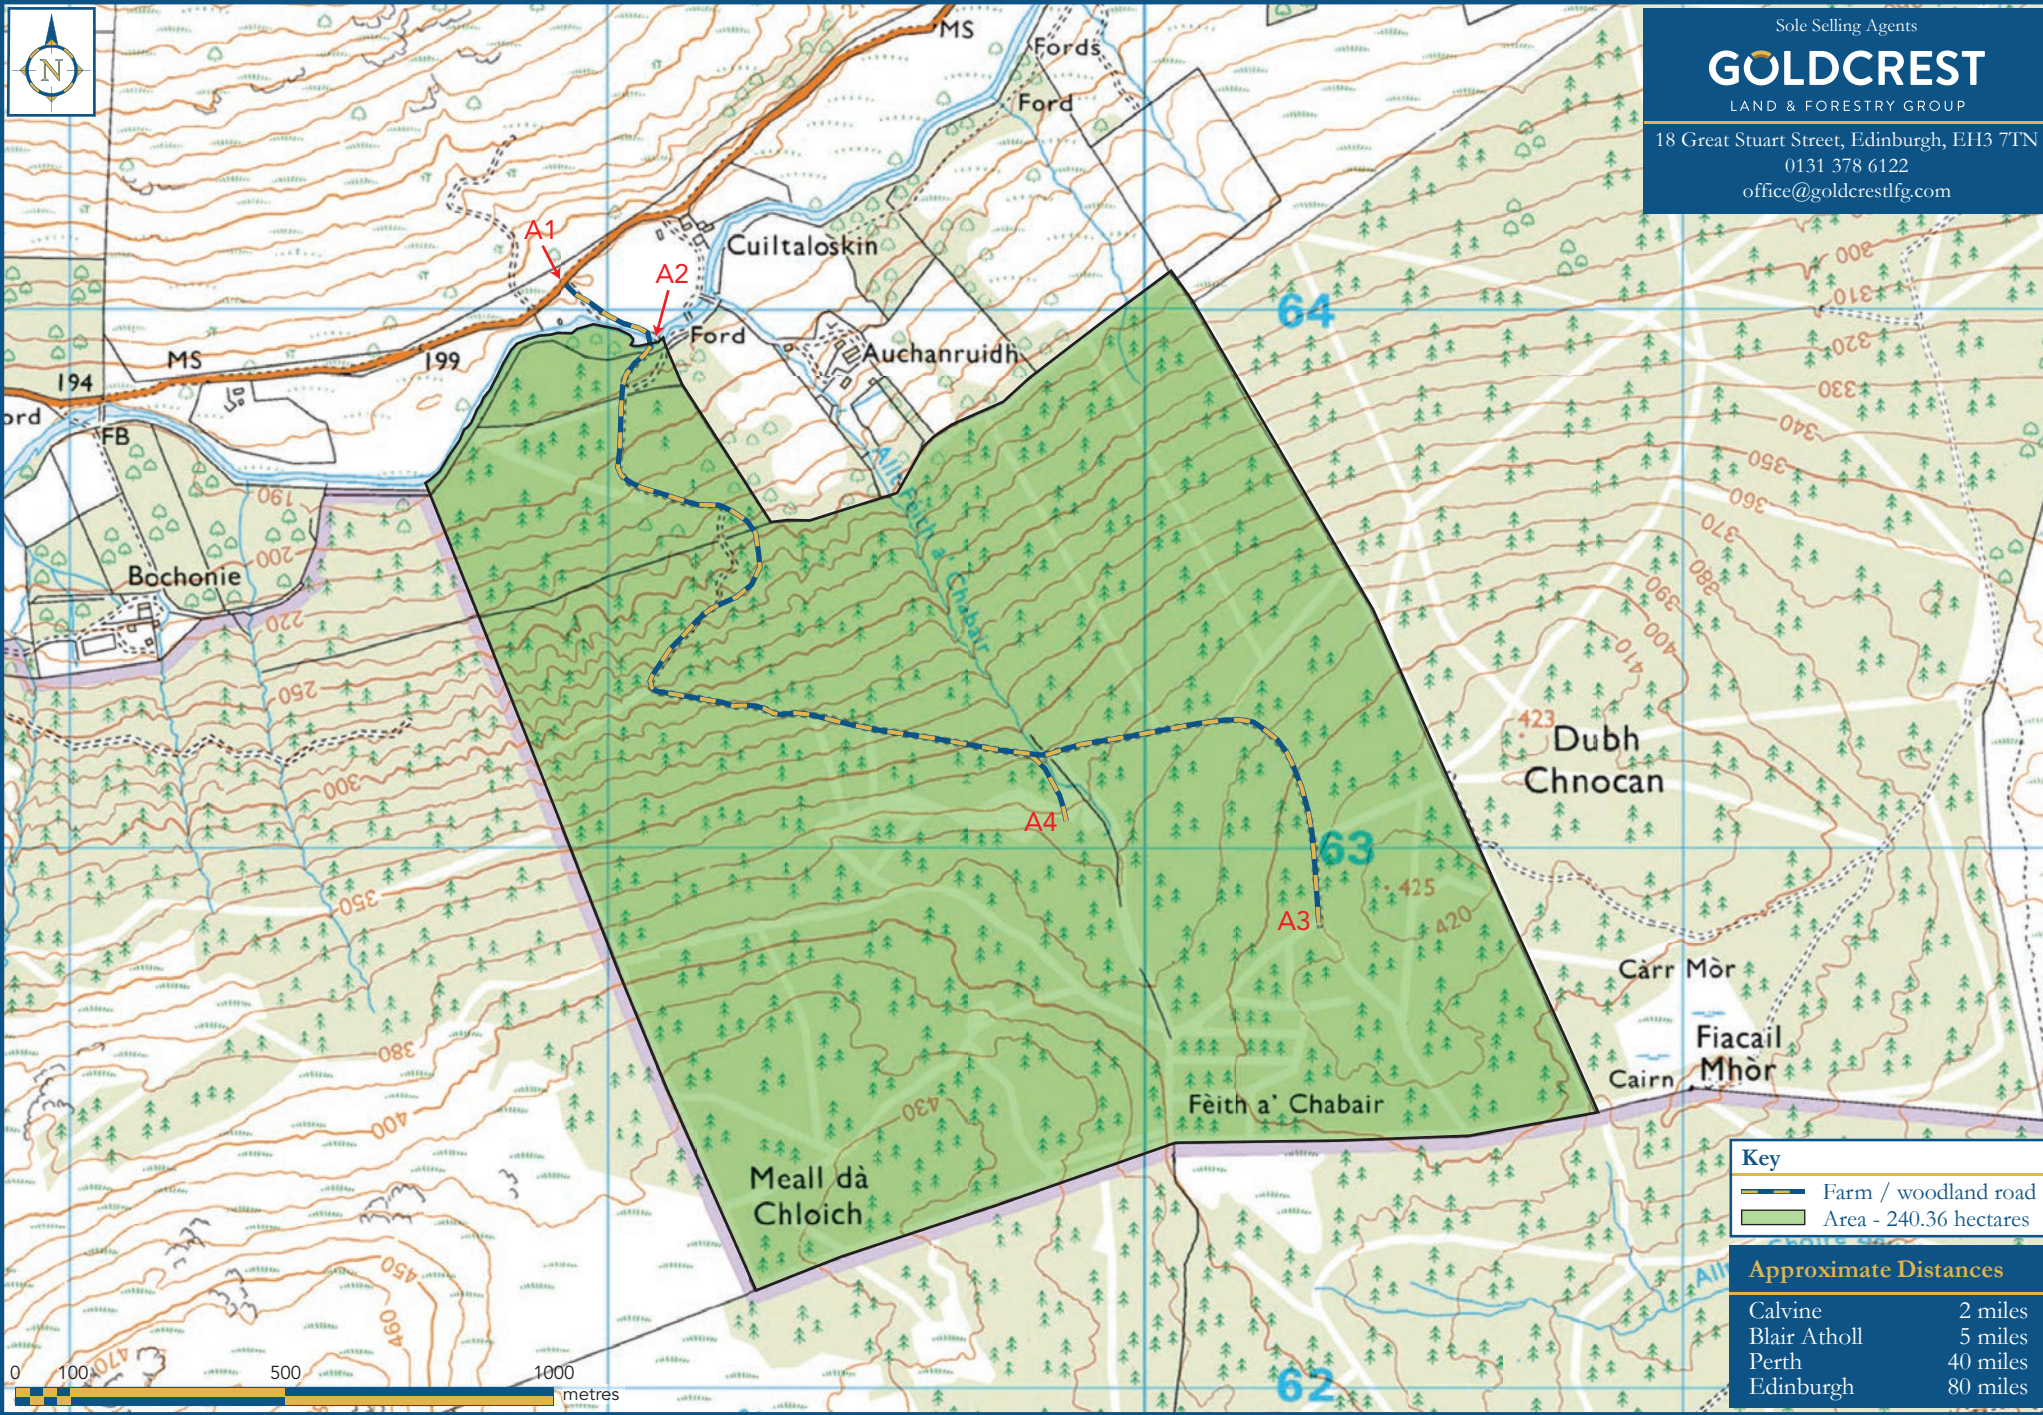

For further information, please contact the Selling Agents.

## Taxation

At present, all revenue from timber sales is Income and Corporation Tax free.

There is no Capital Gains Tax on growing timber, although there may be a liability on the land. Under the Inheritance Tax regime, on commercial woodlands, 100% Business Property Relief should be available on the first £1m, thereafter the Relief is reduced to 50%. VAT is charged on forestry work and timber sales, although its effect is neutral if managed as a business. Government grants are received tax free with the exception of farm woodland and subsidy payments.

#### IMPORTANT NOTICE

GOLDCREST Land & Forestry Group LLP, its members, employees and their clients give notice that: 1. These particulars (prepared in June 2026) and all statements, areas, measurements, plans, maps, aspects, distances or references to condition form no part of any offer or contract and are only intended to give a fair overall description of the property for guidance. GOLDCREST Land & Forestry Group LLP will not be responsible to purchasers, who should rely upon their own enquiries into all such matters and seek professional advice prior to purchase. 2. Neither these particulars nor any subsequent communication by GOLDCREST Land & Forestry Group LLP will be binding on its clients, whether acted upon or not, unless incorporated within a written document signed by the sellers or on their behalf, satisfying the requirements of section 3 of the Requirements of Writing (Scotland) Act 1995. 3. The sellers do not make or give, and neither GOLDCREST Land & Forestry Group LLP nor its members or employees nor any joint agent have any authority to make or give, any representation or warranty in relation to the property. 4. The property (which may be subject to rights of way, servitudes, wayleaves and others) will be sold as per the title deeds, which may differ from these particulars. Photographs may depict only parts of the property, which may not have remained the same as when photographed. 5. Where reference is made to grant schemes, planning permissions or potential uses, such information is given by GOLDCREST Land & Forestry Group LLP in good faith, but purchasers should rely upon their own enquiries into those matters. 6. Prospective purchasers should be aware of the influence and effect the Wildlife and Countryside Act 1981, Nature Conservation (Scotland) Act 2004 and the Wildlife and Natural Environmental (Scotland) Act 2011 along with any statutory designations, may have on the property, including rights of public access under the Land Reform (Scotland) Act 2003. 7. The sellers will not be obliged to accept the highest, nor indeed any, offer and may at any time accept an offer or withdraw the property from the market. Neither the sellers nor GOLDCREST Land & Forestry Group LLP will be responsible for any costs incurred by interested parties. 8. No warranty is given for the health of the trees within the property for sale.
